

## **ENVIRONMENTAL STATEMENT**

### **'Making a Commitment'**

Crompton Place Shopping Centre & St Andrews Court are proactive in its approach to the management of environmental issues. Whenever reasonably practicable we will introduce initiatives, technology, and policies to demonstrate our commitment to promoting environmental benefits. We are dedicated to managing the centre's operations to reduce energy, water and waste. To this end we will regularly review our environmental management to ensure continual improvement and maintenance so that arrangements operate effectively.

Our aim is to make certain that regulatory requirements are consistently met, to increase operational efficiency, minimise wastage, and develop relationship-building with our tenants, employees and customers to work in partnership towards environmental improvement.
